## EDUCATIONAL BACKGROUND

Academy of Art University

2020-10 to 2024-06

Illustration | Bachelor

## PROFILE

I am currently studying illustration at the Academy of Art University, and I am expected to graduate in May 2024. I specialize in various illustration styles, including traditional, digital, and vector art, with years of experience in the field. I am proficient in watercolor, oil painting, digital media, and Adobe Creative Suite. Additionally, I excel in graphic design, stop-motion animation, character design, and 2D animation in vector illustration style. Furthermore, I have experience working as a childrens art instructor and art assistant.

In terms of work, I possess strong teamwork skills, problem-solving abilities, and a track record of delivering innovative ideas. My solid academic performance, coupled with a dedicated work ethic, reflects my integrity and patience. On a personal level, I am emotionally stable, optimistic, and adept at building connections with others. I am eager to contribute my artistic skills and collaborative mindset to a dynamic work environment and look forward to how my qualifications and professional abilities align with your teams needs.

## WORK EXPERIENCE

The artist studio

2022-02 to 2022-11

Assistant teacher

Help children aged 5–12 develop creative thinking and teach them to use different painting tools (watercolor, paint, colored pencil, acrylic paint, charcoal sketch) to express their unique ideas. The most important thing is to convey the art knowledge, understanding, and aesthetics of art I have learned from children in an easy-to-understand way.

## EXTRACURRICULAR

### Associations

• Chengdu Sino-Ocean Taikoo Li booth layout

2022-06 to 2022-08

Assistant

Assisted artists in curating a mural-themed public exhibition at the center part of Chengdus Taikoo Li. The public streetscape exhibition, strategically planned and executed during my tenure, received unanimous praise from the community and became a popular spot for social media check-ins. This experience enriched my expertise in graphic visualization and exhibition layout.
